

## Learning about Historical Buildings: Episode 2 Activity

---

### **Be a history detective!**

What old buildings are there in your neighbourhood?

What do they look like?

See if you can find some old photographs of your neighbourhood (look online or the local library—ask a parent/guardian to help you).

Compare what your neighbourhood looks like today and what it used to look like.

What are the similarities and differences? Why do you think these changes happened?
